

# EASTER PATH

## CAN YOU SEE YOURSELF REFLECTED IN THE MOMENT OF THE PASSION PLAY?

In Oberammergau, the Passion Play moves visitors, performers, spectators, and locals time after time in many ways. You get a sense that the Passion Play is Oberammergau's great passion, and this passion is alive every time.

If people on and behind the stage and in Oberammergau were asked which scene from the events of Jesus' suffering, death, and resurrection is emotionally closest to them, many would probably choose the resurrection scene. People also feel the time spent on rehearsals and performances as a celebration of life, joy and community.

As people also experience challenging times in their lives, Easter provides hope. Many can relate to other moments of the Passion Play.

Sebastian Schulte, a young photographer from Oberammergau, captured these moments during the rehearsals for the Passion Play 2020.

Based on the traditional "Krippenweg" (Nativity Path), we created an "Osterweg" (Easter Path) as an exhibition in local store windows using 10 of Sebastian's photographs. We invite you from 30<sup>th</sup> April to 2<sup>nd</sup> October 2022 to follow this Osterweg, and **maybe you will see yourself reflected in a moment of the Passion Play.**

We want to thank the following for the generous and kind support.

"Eigenbetrieb Oberammergau Kultur" for the generous approval of the pictures. "Tourismusverband Ammergauer Alpen", "Gemeinde Oberammergau", "St. Lukas Verein", "Museum Oberammergau" and all the local businesses for their support.

Can you see yourself reflected in the moment of the Passion Play?

We welcome your thoughts and impressions.
